# instruction manual revision

## 1. GENERAL

This revision details changes that have taken place since the printing of your manual. Use this information to update your manual.

## 2. MANUAL AFFECTED

68P02950C70-A *Mobile Workstation 520™, Application Developer 's Guide*

## 3. REVISION DETAILS

### 3.1 User-Defined Buttons

The six user-defined buttons located on the display unit have scan codes 64h through 69h, from left to right. These scan codes are not used by any other keys on the keyboard.

### 3.2 GPS (Option V145) Configuration

To enable the full operating temperature range for MW-520 equipped with GPS, the time period between receiving messages from the GPS through the COM port, must be longer than the BIOS setup Idle Mode parameter.
